

Chapter 26

NAGALAND

Livestock Population

The following table shows the changes in the total number of livestock in Nagaland during the inter censal period.

Table 26.1: Total Livestock Population

18th Livestock Census 2007 (in Millions)	19th Livestock Census 2012 (in Millions)
1.41	0.91

There is a decrease in livestock population over 2007 to 2012 from 1.41 million to 0.91 million registering a decline of 35.77% in the total number of animals of various species. In Census 2012, the total livestock population has been distributed under various species as per diagram given below:

The diagram above shows that among the total livestock, Pigs contributes highest with 58% followed by Cattle 27%, Goat 11% and Buffalo 4% besides marginal contribution is attributed by other livestock species such as Sheep, Camel, Mules, Donkeys, Horses and Ponies. The variation in the number of animals in different species of Livestock in comparison to the previous census is shown in the table:

Note: Figure 'Zero' means either 'nil' or negligible.

Trend of total livestock population 2003-2012

The change in the total livestock population over past 3 livestock censuses is depicted below:

Cattle

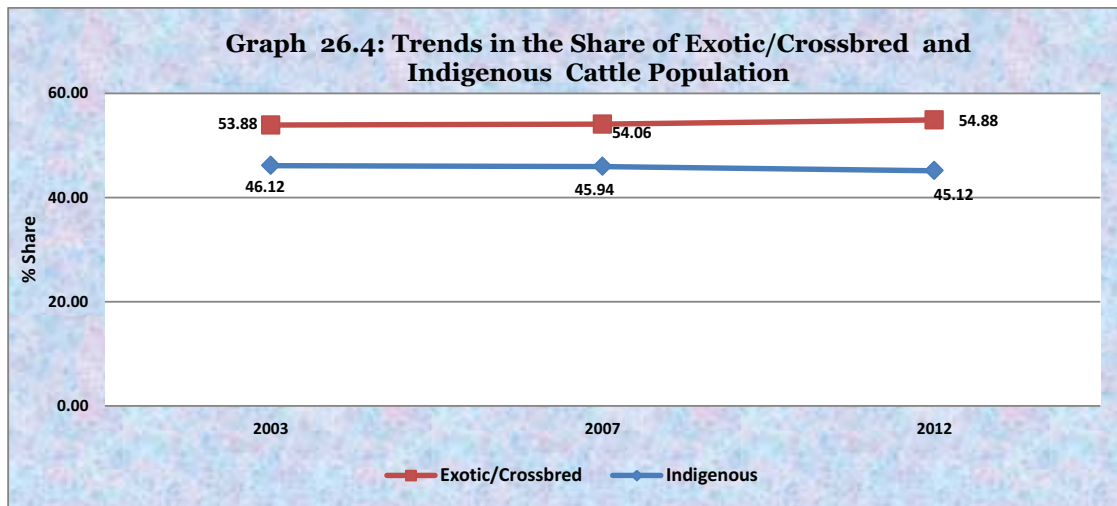

The total Cattle contributes around 27% of the total livestock population i.e. 0.23 million numbers in the state. There is a decrease in number of Cattle with 49.99% during the inter censuses period (2007-2012).

The above graph shows that the total Exotic/Crossbred Cattle population has decreased from 0.24 million in 2003 to 0.12 million in Census 2012. The Indigenous cattle population has decreased from 0.20 million in 2003 to 0.10 million in 2012. The percentage change in number of Exotic and Indigenous cattle population has

shown decline of 49.23% and 50.88% respectively during the inter censuses period (2007-2012).

Trends in the Share of Exotic/Crossbred and Indigenous Cattle Population

The diagram above shows the trends in the percentage share of indigenous and crossbred cattle over total cattle population over the period 2003-2012. The percentage share of crossbred cattle and Indigenous is showing some marginally variation during the previous census.

Cattle-Female

The total number of female cattle in the state is 0.14 million as per census 2012. The number of female cattle has decreased from 0.28 million in 2003 to 0.14 million in 2012 as depicted in the diagram below. However, over the previous census the female cattle population has decreased by 51.8%.

District-wise Cattle Population

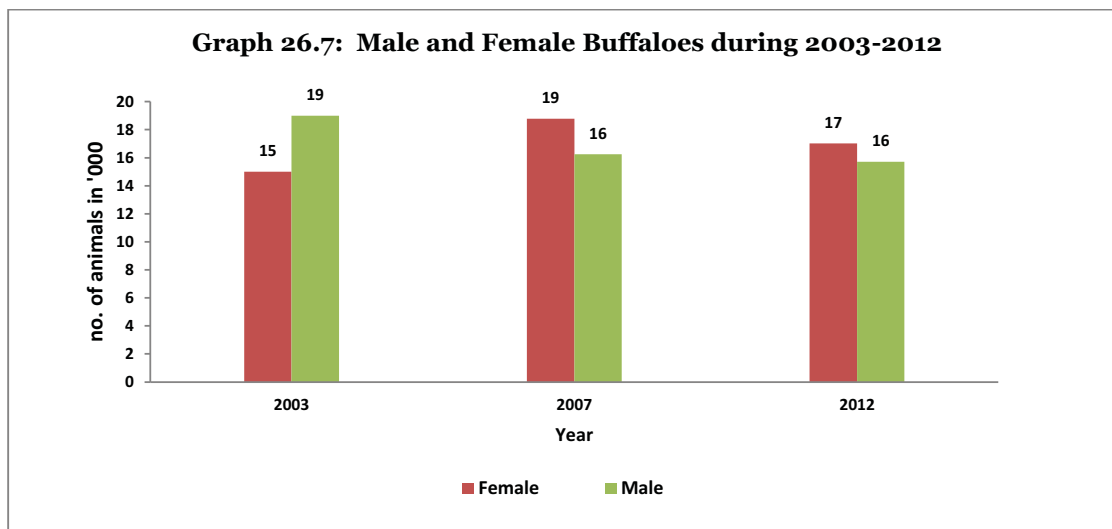

The Graph below shows that the District of Dimapur has the highest contribution in Cattle Population with 24.48%. The second and third highest contributors are

Tuensang and Zunheboto with share of cattle population of 11.90% and 11.61% respectively.

Buffalo

The total number of Buffalo in the state is 0.03 million numbers as per census 2012. There is a decrease in number of Buffaloes with 6.57% during the inter censuses period (2007-2012).

As per the above diagram the female buffalo population has increased from 0.015 million in 2003 to 0.017 million in 2012. However, the female buffalo population has decreased by 9.36% during the inter censuses period (2007-2012).

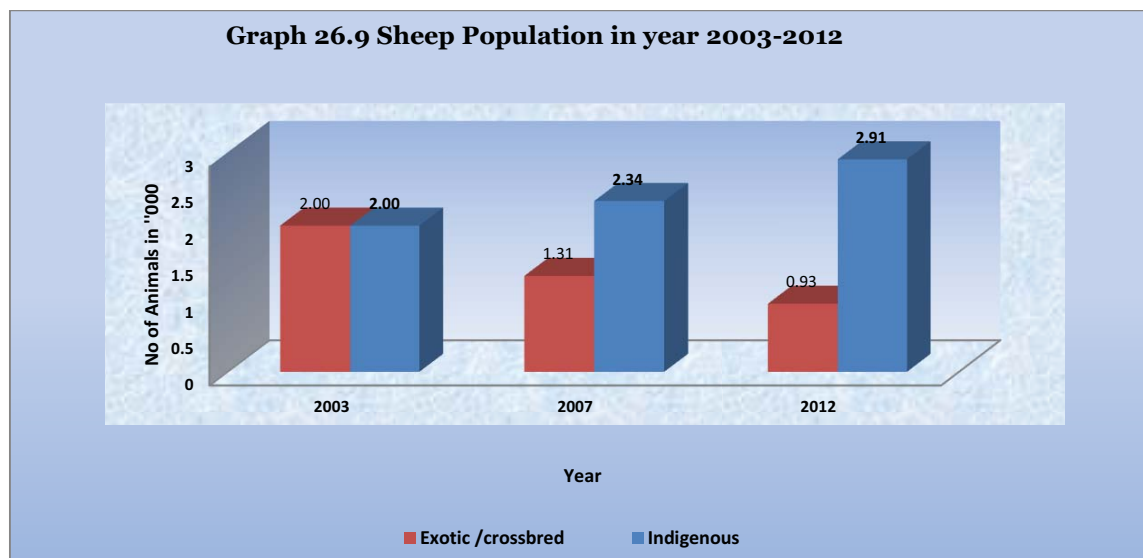

District-wise Buffalo Population

The Graph below shows that the District of Dimapur has the highest contribution in Buffalo Population of 36.76%. The second and third highest contributors are Mon and Peren with share of buffalo population of 21.19% and 19.48% respectively.

Sheep

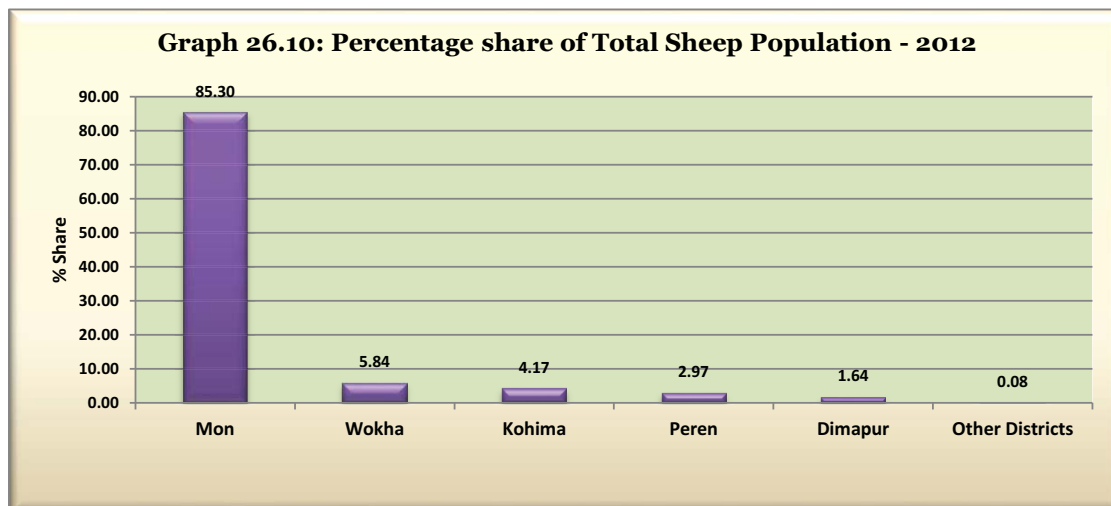

The total number of Sheep in the state is 0.004 million numbers as per Census 2012. There is a 5.18% decline in number of Sheep during the inter censuses period (2007-2012).

The number of exotic sheep has decreased from 0.002 million in 2003 to 0.001 million in 2012. The number of indigenous sheep has increased from 0.002 million in 2003 to 0.003 million in 2012. The percentage changes of exotic/crossbred and indigenous sheep population are -29.04% and 24.39% respectively during the inter censuses period (2007-2012).

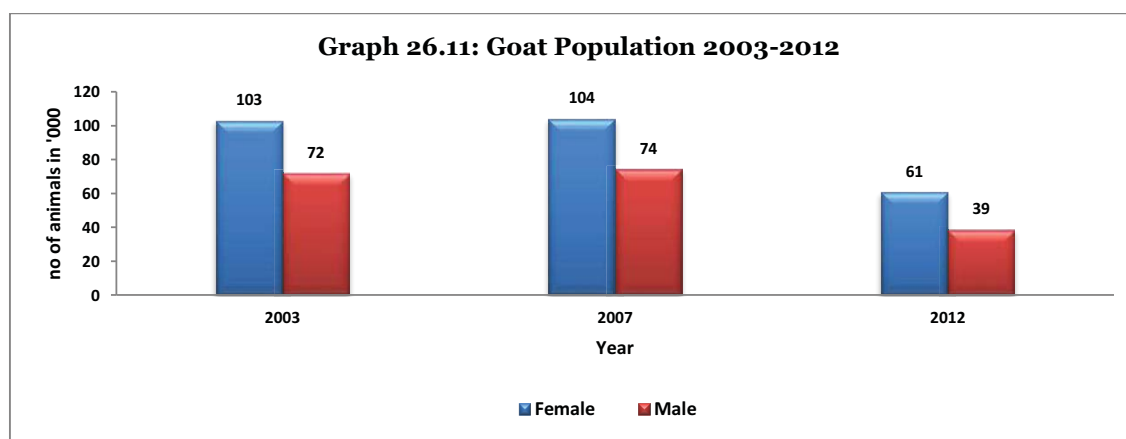

District-wise Sheep Population

The Graph below shows that the District of Monhas has the highest contribution in Sheep Population with 85.30%. The second and third highest contributors are Wokha and Kohima with share of sheep population of 5.84% and 4.17% respectively.

Goat

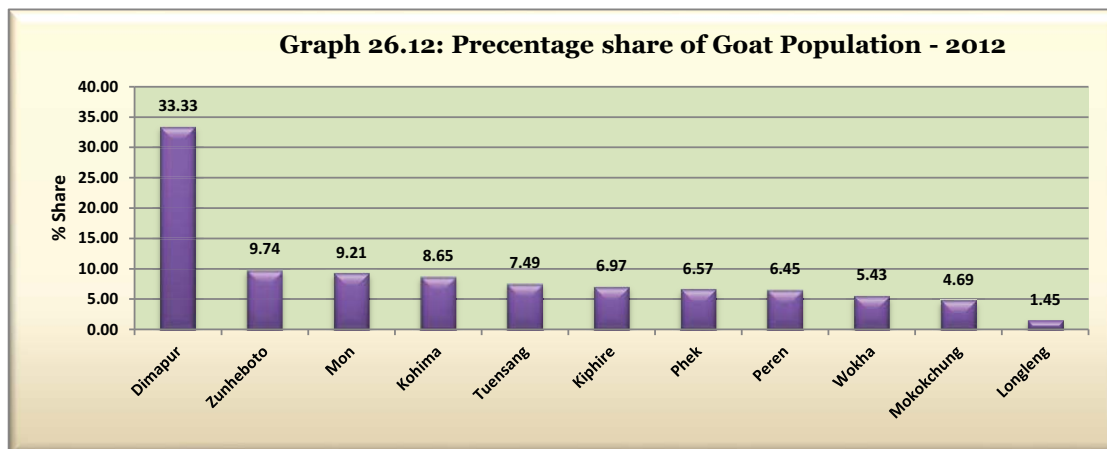

The total number of Goat contributes in the state is 0.09 million numbers as per Census 2012. There is a 44.21% decline in number of goat population during the inter censuses period (2007-2012).

The diagram above shows that the total number of female Goat population has decreased from 0.10 million in 2003 to 0.06 million in 2012. The female goat population has decreased by 41.56% over the previous census. The male goat population has also decreased from 0.07 million in 2003 to 0.03million in 2012. The population of male goat has decreased by 47.92% during the inter censuses period (2007-2012).

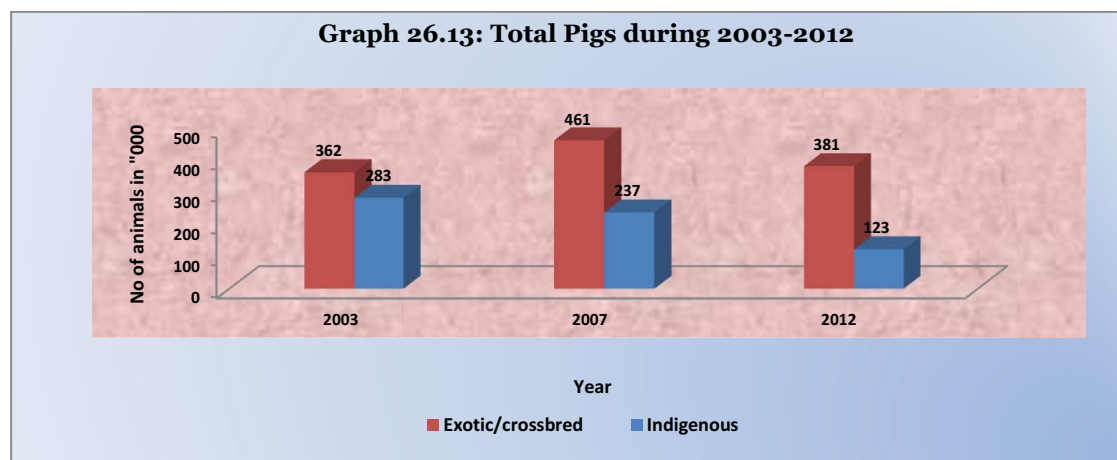

District-wise Goat Population

The Graph below shows that the District of Dimapur has the major contribution in Goat Population of 33.33%. The second and third highest contributors are Zunheboto and Mon with share of goat population of 9.74% and 9.21% respectively.

Pigs

The total number of pig in the state is 0.50 million numbers as per Census 2012. There is a 27.82% decrease in number of pigs during the inter censuses period (2007-2012).

The number of exotic/crossbred pig has increased from 0.36 million in 2003 to 0.38 million in 2012. The number of indigenous pig has decreased from 0.28 million in 2003 to 0.12 million in 2012. The percentage changes in number of exotic and indigenous population are -17.33% and -48.18% respectively during the inter censuses period (2007-2012).

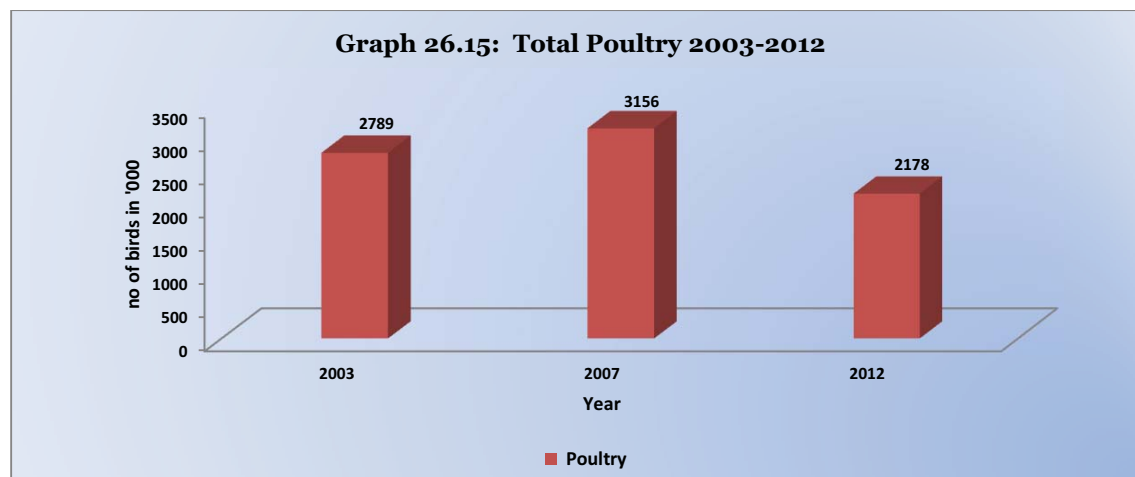

District-wise Pig Population

The graph below shows that the District of Dimapur has the highest contribution in Pig Population of 13.81%. The second and third highest contributors are Zunheboto and Tuensang with share of pig population of 11.85% and 11.43% respectively.

Poultry

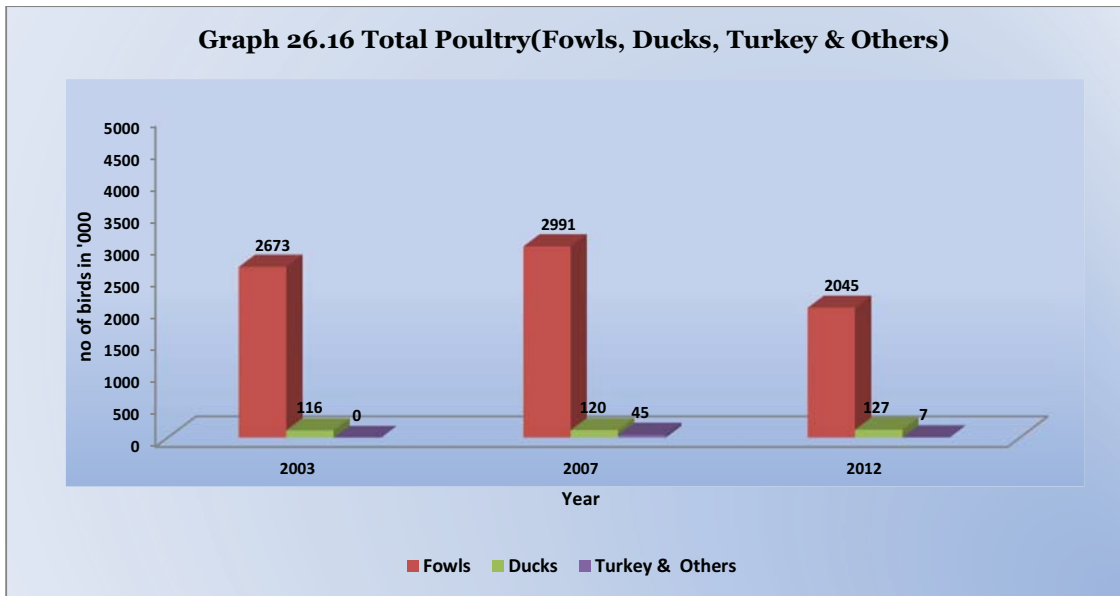

The Poultry population is mainly contributed by Fowls and Ducks in the state with the total Poultry population is 2.17 million numbers in 2012. The changes in the poultry population over previous 3 censuses are depicted in the Graph below:

The poultry population is showing a fluctuating trend over 2003-2012. The total number of birds has decreased from 2.78 million numbers in 2003 to 2.17million numbers in 2012. There is decrease of 30.97% in the poultry population during the inter census period (2007-2012).

Fowl, Duck and Turkey & others

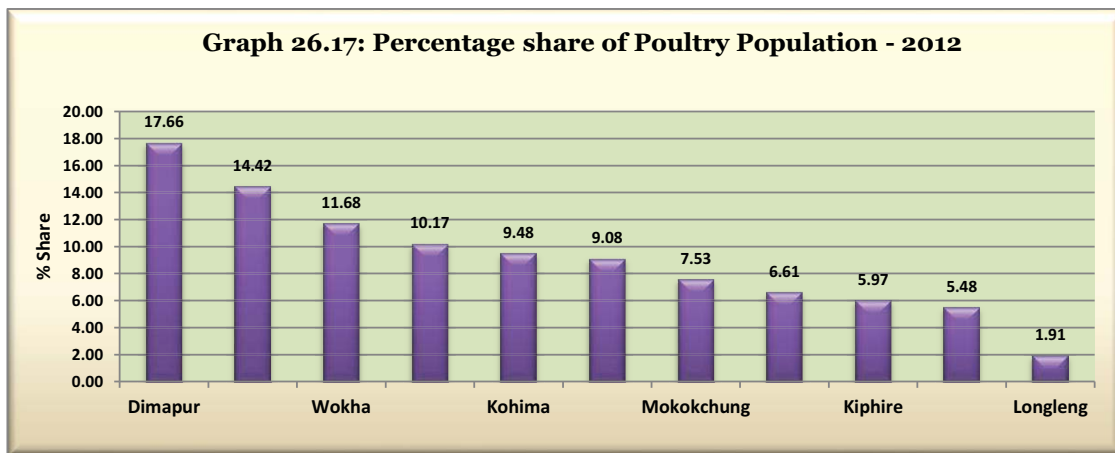

The diagram below shows the number of poultry birds i.e. Fowl, Duck and Turkey & others over the period 2003-2012.

The fowls have decreased from 2.67 million numbers in 2003 to 2.04 million numbers in 2012. The fowl population has decreased by 31.62% over the previous censuses periods. The ducks population has increased from 0.11 million numbers in 2003 to 0.12 million number in 2012. The ducks population has increased by 5.53% over the previous census and the turkey and other birds have decreased by 85.37% during inter censuses period (2007-2012).

District-wise poultry Population

The Graph below shows that the District-wise percentage of Poultry population.

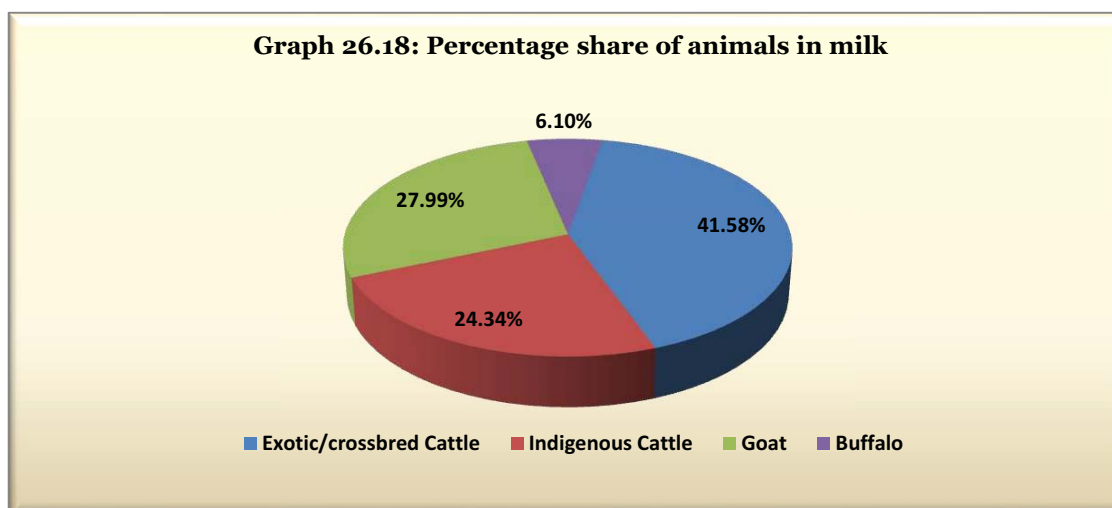

The analysis shows that the District Dimapur having the highest contribution of 17.66%. The second and third largest contributors are Phek and Wokha with 14.42% and 11.68% respectively.

Uses- Cattle, Buffalo and Goat

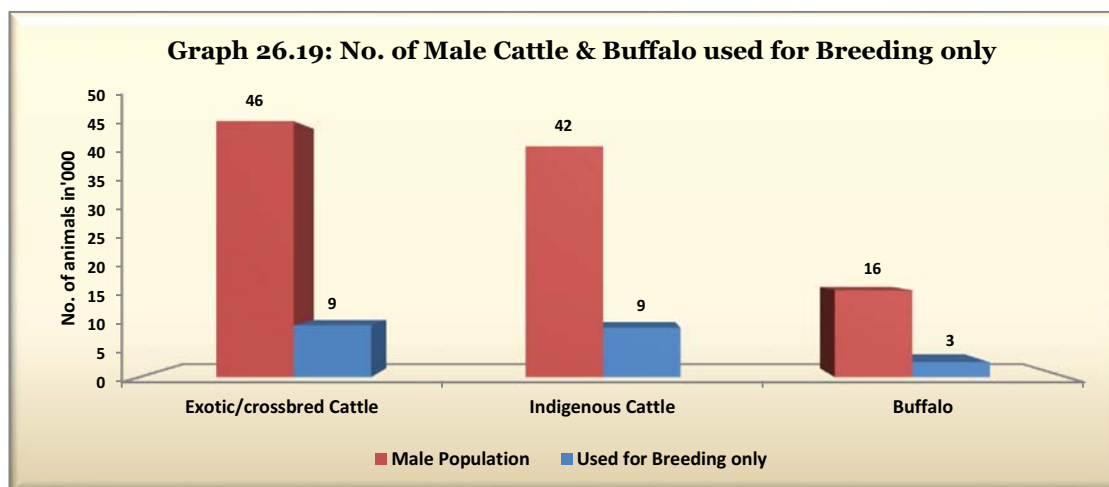

Animals in milk

Animals in milk mean the animals who contribute towards production of milk. The total number of animals in milk in the State is 0.07 Million numbers. The diagram bellow shows the percentage share of number of animals in milk for three major species such as cattle, Buffalo and Goat.

Animals used for Breeding

The total number of animals used for breeding in the state is 0.02 million number as per census 2012. The diagram below shows the distribution of male Cattle and Buffalo used for Breeding.

The detailed Statistical tables, species and district wise, with rural and urban combinations are presented in the Annexure-XXVI for reference.
