MESSAGE

I am delighted to learn that the Department of Tourism is bringing out the “Tourism Policy 2020-2025”. I understand that tourism in Tripura has come a long way and it is one of main engines of economic development. The initiative taken by the Department like launching Paryatan Sahayak Prakalp scheme for promoting entrepreneurship, introducing tourist friendly activities like audio guides, guides, eco- friendly vehicles, development of destinations like Chabimura, Unkaoti, Matabari and Neermahal are praiseworthy. The impact of these initiatives will be visible in coming years and will help in transforming Tripura as one the most important tourist destination in India.

I hope that the Department will continue to play the perfect host to tourists from around the world by presenting the best we have as a destination and also at the same time preserving the tradition, culture, values and the interest of the people of Tripura.

I hope that the Tourism Policy will be a guiding document for all the stakeholders to promote Tripura as a premier tourist destination.

Wishing all success.

MESSAGE

The tourism sector in Tripura has been growing consistently with lot of innovative activities being undertaken. However it has been observed that this growth has been in an unorganised manner with all the stakeholders of this sector working independently. It has been felt that all these stakeholders have to be brought together so that the vision of Tripura being a world class tourist destination is realised. This policy formulation is one of the steps towards achieving this vision.

Tourism in Tripura began very small and has been growing consistency. Today the state attracts more than 5 lakh domestic and foreign tourist every year and has created a mark for itself on the tourism map of the country. I expect the tourism sector to grow more. This policy aims at facilitating this growth and at the same time ensuring that this growth in accordance with the traditional and cultural values of the state. The Government also aims to provide an environment conducive to the growth of the tourism sector so that all the stakeholders especially private investors are encouraged. This policy document also aims to provide this framework of conducive working environment.

The policy document has been prepared after consultation with various stakeholders as at various stages and it focuses on identifying thrust areas for tourism in the State, the strategy to be adopted to make Tripura a world class destination, encouraging private partnerships, boosting local entrepreneurship and local community involvement in promoting tourism and all the same preserving the environment, heritage and culture of the state. I believe that this policy will strengthen the tourism sector of the State and will contribute not only for development of tourism but in overall economic development of the State.

Pranajit Singha Roy
